INTERNATIONAL CONFERENCE
 ON
 MULTIDISCIPLINARY
 TECHNOLOGIES & CHALLENGES
 IN
 INDUSTRY 4.0

ONE-DAY PRE CONFERENCE
 WORKSHOP FROM UIPath
 Build your own Bot

About Conference

This Conference will explore a new scope of innovations from distinguished authors in industry and academia working for the developments in Science, Engineering and Technology from all over the world. The main motivation of conference is to bring together Academicians, Scientists, Research scholars and students to share and disseminate their knowledge on scientific research related to conference topics. The conference confers the practical challenges encountered and the solutions adopted by eminent researchers on Industry 4.0.

Conference Theme

The Fourth Industrial Revolution is emerging and evolving at an exponential growth that transform of entire systems of production, management and governance. This conference will highlight the impact of transition to Fourth Industrial Revolution on Infrastructure, Ecosystem, Efficiency and Competitiveness of industrial operation. The Impact of Robotics, Augmented Reality, Digitization, IOT and Artificial Intelligence on supply chain support are highlighted.

Our Inspiration

Late Dr. S.M. Venkatpathi
Founder & Chairman, EPGI

Chief Patrons

Smt. Ramadevi B.L.
Chairperson, EPGI

Conference Topics

Smart Factory

- Cyber-Physical Systems/Embedded Systems
- Internet of Things/Services
- Automated Inspection
- Modularization/Prefabrication
- Smart Logistics
- Product-Life Cycle-Management
- 3D Printing and Rapid/Advanced Manufacturing
- Zero Pollution
- Zero Energy Building/ Carbon Footprint
- Transportation based on Artificial Intelligence
- Emerging Technologies in Civil Engineering
- Intelligence Supply Chain Management System
- Robotics
- Electric Vehicle Technologies
- Smart Cities
- Energy Automations in Electrical Systems
- Smart Building Management System
- Human-Computer Interaction

Simulation and Modelling / Processing

- Predictive Analysis using AI/ ML
- Control & Supervision Systems
- Building Information Modelling
- Augmented Reality (AR)/Virtual Reality (VR)
- Virtual Manufacturing Systems
- Machine Design & Simulations
- Automation System in Traffic Management
- Image Processing / Signal Processing
- Biomedical Processing

Digitization and Virtualization

- Cloud Computing
- Big Data
- Mobile Computing
- Computing Innovation in Social Media
- Cognitive Computing
- Fog Computing
- Cyber Security
- Network Security Systems
- Virtual Manufacturing System
- Computational Intelligence & Analytics

The conference topics of interests include but are not limited to the above domain.
